1.96" Fitness Tracker Smartwatch with BT Calling

ProWatch-AM19 is a fitness tracker smartwatch designed to help you lead a healthier and more active lifestyle with a heart rate sensor, pedometer sensor, blood oxygen level sensor, sleep tracker, and 110 sports modes. Enjoy uninterrupted connectivity with the dual Bluetooth Versions BT 3.0 + BLE 5.2 and take advantage of the hands-free BT calling. The stunning 1.96-inch always-on AMOLED display with 410X502 Resolution promotes user experience. While the 300mAh battery is more than equipped to handle business trips and vacations, running for 10 days. Designed to withstand water and dust with IP68, the ProWatch-AM19 is the perfect companion for every outdoor adventure.

• Colours Available :   Black   Blue

Features

- Bluetooth Calling
- 110 Sports Modes
- 1.9 Inch Hi-Res Display
- IP68 Water Resistance
- Healthy Life Management
- Up to 10 Day Battery Life

TECHNICAL SPECIFICATIONS

PowerMine-600 is a powerful 600W/172800mAh power bank designed to serve as a one-stop solution for all your off-grid charging needs. Carry all your essential electronic devices out on the road, use them wherever you go and set them up anywhere. The 600W inverter provides 230V AC mains power to run appliances such as TVs and laptops. PowerMine-600 also includes high-power USB and USB-C charging ports suitable for charging most laptops, tablets and smartphones. When PowerMine-600 finally runs out of power, recharge it fully in as little as 4 hours through the DC and USB-C inputs.

5-in-1 Foldable MagSafe Compatible Wireless Charging Power Bank

Streamline your charging process with state-of-the-art technology as PowerPack-Fold is the ideal charging solution for your devices. Dedicated charging modules for your iPhone, Apple Watch, and AirPods in a stunning and unique foldable design, plus a 20W USB-C PD port and an 18W QC 3.0 USB port, this 10000mAh power bank that doubles as a charging stand is revolutionary. It can be recharged through the micro-USB port or the USB-C input/output port and also supports simultaneous pass-through charging to your connected devices. Now you can conveniently use the same cable to charge your phone and battery pack. Portable, aesthetically inspired design with multi-device ultra-fast charging complements any space while providing you a convenient power supply for your everyday devices.

ProLink-V2H, VGA to HDMI adapter lets you turn the VGA port on your Desktop or Laptop computer into an HDMI output port. With the ProLink-V2H, you can expand your VGA video output to accommodate the increasing number of displays and projectors that only support HDMI. This adapter ensures you're harnessing the highest video quality from your VGA output, with support for resolutions up to 1920x1080 (1080p). With a built-in USB power cable the device is powered using the USB port on your computer. The VGA to HDMI adapter will work with any computer operating system, but when working with a Windows® computer the adapter supports native USB audio.

AC Charger

140W Super-Speed GaNFast™ Charging Station with Power Delivery 3.1 & Quick Charge 3.0

GaNPort-140W is a single high-speed charging station for all your devices that lets you upgrade to super-speed 140W charging. Charge your USB-C compatible devices with the 3 Power Delivery ports to get faster charging speed than standard chargers. The 18W Qualcomm Quick Charge 3.0 port lets you charge compatible devices at 4X faster speeds. Featuring Gallium Nitride components this charging station provides an efficient charging experience with less heat and a compact form factor. GaNPort-140W comes with a stand to prop the charging station upright, and an AC plug-in cord that adds convenience to your daily charging routine. This charging station also has a built-in multi-protect safety system with high-temperature, over-current, short-circuit protection, and adaptive charging to give you a well-rounded charging experience.

Fast Charging

Easily charge more devices faster with the PowerPort-65, a 65W Super Speed GaN Charging Adapter. The adapter powers up to two tablets or smartphones at a time and is ideal for travellers who frequently travel with multiple electronics. Integrated USB ports allow users to charge a laptop, tablet, smartphone, smartwatch, or other USB-C devices.

25W Power Delivery Dual Port Adapter with Ultra-Fast USB-C to Lightning Cable

ChargeKit-25PDi combines a 25W dual port charging adapter and a 1.2m USB-C to Lightning cable, which is the ideal charging solution for your latest iPhone. The adapter features a USB-C Power Delivery and a QC 3.0 USB-A port that is designed to deliver optimum speed charging through the dual output ports. Its universal adaptability ensures this is the only charger you need for any smartphone or tablet device. The high tensile strength silicon cable makes for the ultimate solution for your charging needs. Silicone shielding provides superior durability and flexibility. This cable is tested to last 50k+ bends and is designed to handle maximum stress and strain.

5-Section Aluminium Travel Tripod with Integrated Monopod

The Precise-155 anodized aluminium tripod is a sturdy yet lightweight tripod with 5-section legs that fold upward 180° to create an extremely compact package for transport – with the included head attached, folded length is only 32cm. With a maximum load capacity of 5kg, the tripod and head ensure a stable base for many DSLR body/lens combinations. This tripod's key feature is the center column mechanism, which allows the column to be extended vertically with great fluidity and can be detached easily to be used as a monopod. This makes it an extremely versatile tripod, suitable for a wide range of photography and videography applications.
